## Product Information Pressure Sprayers 403 / 404

### Operational benefits

- Attractive, modern shape
- Same basic design for model range
- Fill volume 1.25 l (403), 2.0 l (404)
- Secure footing with 3 moulded feet
- Ergonomically shaped and robust handle with sufficient space to wear gloves
- Metal pump stem
- Max. pressure 2 bar
- When fully pressurized, almost the complete contents can be sprayed without the need to pump again
- Pressure release valve
- Large filling aperture
- Adjustable universal nozzle
- Almost empties tank completely
- Low empty weight
- Attractive individual packaging in 4-colour print

Small, light and handy, yet robust and versatile – these are our compact manual pressure sprayers 403 and 404.

A large filling aperture enables the 1.25 l or 2.0 l tank to be filled cleanly with the spray liquid, and any leftovers can be easily drained.

The large pump lever can quickly raise the internal pressure up to the maximum of 2 bar. This lets you apply almost the entire content without additional pumping. The integral safety valve protects the appliance against excess pressure build-up.

Model	403	404
Part no.	4000103	4000104
Piston pump		●
Nominal capacity litres	1,25	2,0
Spray pressure bar max.		2
