THE BETTER CHOICE. SINCE 1948.
German quality sprayers and cut-off machines

Product Information CLASSIC Backpack sprayer 473 P (Special version)

Operational benefits

- For standard duties and casual use in plant protection tasks for medium size areas, in greenhouses, in the garden and for landscaping works.
- Suitable for use with all approved plant protection chemicals and for liquid fertilizers.
- Proven SOLO piston pump designed for higher pressure and for use with low viscosity (free flowing) liquids.
- The pressure is manually adjustable from 1 - 4 bar.
- The tank has a 12 litre nominal capacity with integrated fill level markings and incorporates a sturdy base frame. The thick tank walls are made of UV-resistant polyethylene.
- A removable strainer is fitted in the large tank filling aperture.
- The robust pump lever is bolted to the pump shaft and can be attached to either side of the sprayer.
- The transparent, fabric reinforced delivery hose is particularly strong and kink resistant. The generous length allows a large spray coverage area.

- A sturdy hand trigger valve with release lock allows fatigue-free working. The valve can be equipped with a pressure gauge.
 - Included with the sprayer are a plastic flat spray nozzle and a two-part hollow cone nozzle.
- ### Accessories
- The comprehensive SOLO Accessory Range is available for the CLASSIC range. The supply of spare parts for these products is guaranteed for many years to come.

Large filling aperture for easy filling, draining and cleaning. Strainer with large filtering surface.

Almost unbreakable 50 cm long spray wand.

The model SOLO 473 P is a robust backpack sprayer for the private user and for the occasional use in professional situations.
